Making the Invisible Count

GLOBAL DISABILITY SUMMIT SIDE EVENT
February 17, 2022 I 5:30 – 6:45 pm CET
Please register here: https://cbm-org.zoom.us/webinar/register/WM_cq9nwUvJSb27um2ONkR7zA

The scarcity of disaggregated data on disability is a fundamental cause for the exclusion of persons with disabilities from international development processes. Disability data is critical to informing and promoting evidence-based policies that ensure that no one gets left behind. In this side event of the Global Disability Summit, Cristoffel Blindenmission (CBM) and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) explore how states, NGOs and organisations of persons with disabilities (OPDs) can collaborate to collect and use disaggregated disability data and achieve our SDGs faster.

PROGRAMME
Panel Discussion

Martha Getachew Bekele, Lead Analyst, Development Initiatives (Moderation)

Dr. Claudia Cappa, Senior Advisor, Statistics, UNICEF

Dr. Daniel Mont, Executive Director, Centre for Inclusive Policy

Fried Lammerink, GIZ Development Advisor, National Council of Persons with Disabilities (NCPD) Rwanda
